SUMMARY

I am an aspiring Front-End Developer, currently pursuing my B.Tech in Information Technology . My journey in the tech field is fueled by a strong command over HTML, CSS, JavaScript, and a good grasp of C, C++, and Object-Oriented Programming. I have a keen interest in designing captivating web pages that enhance user experience. Beyond my technical pursuits, I find joy in playing hockey, immersing myself in books, and unwinding to music. This blend of technical skills and personal interests drives my passion for creating innovative and user-centric designs.

EDUCATION

Rajiv Gandhi Proudyogiki Vishvavidhyalaya,Bhopal
